FOOTPRINTX

Digital Footprint Intelligence Platform

A privacy-first, open-source platform that turns scattered OSINT signals — known breaches, account registrations, and public web references — into one evidence-backed Digital Exposure Report with confidence scoring, risk analysis, and remediation guidance.

Version 0.1 (MVP baseline)

Status Open source · defensive security tool

Date October 2026

NEXT.JS · FASTAPI · POSTGRESQL · REDIS

PRIVACY-FIRST · CONSENT-GATED · SELF-ASSESSMENT
